

*Obtained from the leaf of green tea, Sunphenon is a series of highly purified tea polyphenols rich in natural catechins that have been shown to have numerous physiological benefits, including antioxidant, anti-microbial, deodorant and thermogenic (fat burning) activities. Sunphenon is produced from pesticide controlled green tea leaf to assure compliance with stringent U.S. FDA residual pesticide regulations for tea as outlined in 40CFR180. Sunphenon is extracted via a water infusion process and decaffeinated using only approved food grade solvents.*

Products	Specification	Application
Sunphenon EGCg	EGCg >90%, caffeine <0.1%	High-purity, decaffeinated EGCg for use in supplements, foods and beverages without tea taste or color.
Sunphenon XLB	polyphenols >80%, catechins >60%, EGCg >15%, EGC > 25%, caffeine <1%	Decaffeinated catechins. Excellent stability and very low astringency. Perfect for flavor sensitive beverages.
Sunphenon 90LB	polyphenols >80%, catechins >80%, EGCg >40%, caffeine <1%	Decaffeinated catechins. Excellent tea taste and low astringency. Perfect for beverages.
Sunphenon 90DCF-T	polyphenols >80%, catechins >80%, EGCg >45%, caffeine <1%	Decaffeinated catechins for use in supplements, foods and beverages with or without tea taste or color.
Sunphenon 90M-T	polyphenols >80%, catechins >75%, EGCg >45%, caffeine <6%	High-purity catechins for use in supplements, foods and beverages with or without tea taste or color.
Sunphenon 80A-T	polyphenols >80%, catechins >70%, EGCg >40%, caffeine <8%	High-purity catechins for use in supplements.
Sunphenon 70H-T	polyphenols >70%, catechins >60%, EGCg >25%, caffeine 12.5-20%	Mid-level catechins and natural green tea caffeine. For supplement use.
Sunphenon 30S-O	polyphenols >25%, catechin >15%, caffeine <10%	Certified Organic. Excellent tea taste with good stability in beverages.
Sunphenon 30R-T	polyphenols >25%, catechins >15% caffeine <10%	Prepared using roasted tea leaves. For supplement and food use.
Sunphenon 30LB-T	polyphenols >25%, catechins >15%, caffeine <1%	Decaffeinated by a solvent-free process. Subtle bitter taste for use in beverages.
Sunphenon WT-3	polyphenols >25%, catechins >15%, caffeine <3%	White tea extract with vibrant tea flavor and aroma.
Sunphenon CF-T	polyphenols >50%, catechins > 45% EGC > 22%, caffeine 20-25%	Natural green tea caffeine. For beverage or supplement use.
Matcha 101-O	green tea leaf powder, polyphenols>5%	Organic green tea leaf powder. Fresh taste and vivid green color for use in beverages, dairy and confections.
Matcha 40-O	green tea leaf powder, polyphenols>18%	Blend of organic green tea leaf powder and catechins for use in beverages, dairy and confections.

Suntheanine	> 98% L-theanine	Taiyo's exclusive brand of pure L-theanine, the award-winning, patented amino acid for stress, mental relaxation and focus. Suntheanine® is GRAS Affirmed with FDA letter of no Objection (GRN 000209).

*Nutrition Delivery System offering unique fortification and dispersion of functional ingredients with no off flavor or instability. SunActive offers sustained release that is mild on the gastrointestinal system, has an improved absorption and bioavailability. SunActive is stable against heat, salt, pH and oxidation.*

SunActive Fe-P80US	85.0 ± 5.0 mg/g iron content	Iron delivery system for use in foods, beverages and dietary supplements.
SunActive Zn-P240	250.0 ± 25.0 mg/g zinc content	Zinc delivery system for use in foods, beverages and dietary supplements.
SunActive Q-10E	10-12% Coenzyme Q10 content	Water dispersible powder grade Coenzyme Q10 for use in RTD and instant beverages.

*Partially Hydrolyzed Guar Gum (PHGG). An all natural galactomannan soluble fiber that is tasteless, colorless and odorless. Sunfiber® delivers high fiber content and excellent pH, heat and freeze/thaw stability. Clinically proven to lower glycemic index, improve mineral absorption and promote intestinal regularity.*

Sunfiber R	> 80% soluble fiber - regular grade	Regular grade for use in foods, beverages and supplements,
Sunfiber AG	> 80% soluble fiber - agglomerated	Agglomerated for powder applications, offering instant solubility.
Sunfiber HG	> 75% soluble fiber - high grade	High grade low viscosity soluble fiber for use in foods and beverages.
Sunfiber IG	> 75% soluble fiber - intermediate grade	Intermediate grade offering rapid solubility for use in beverage applications, as well as capsules and tablets requiring controlled bulk density.
